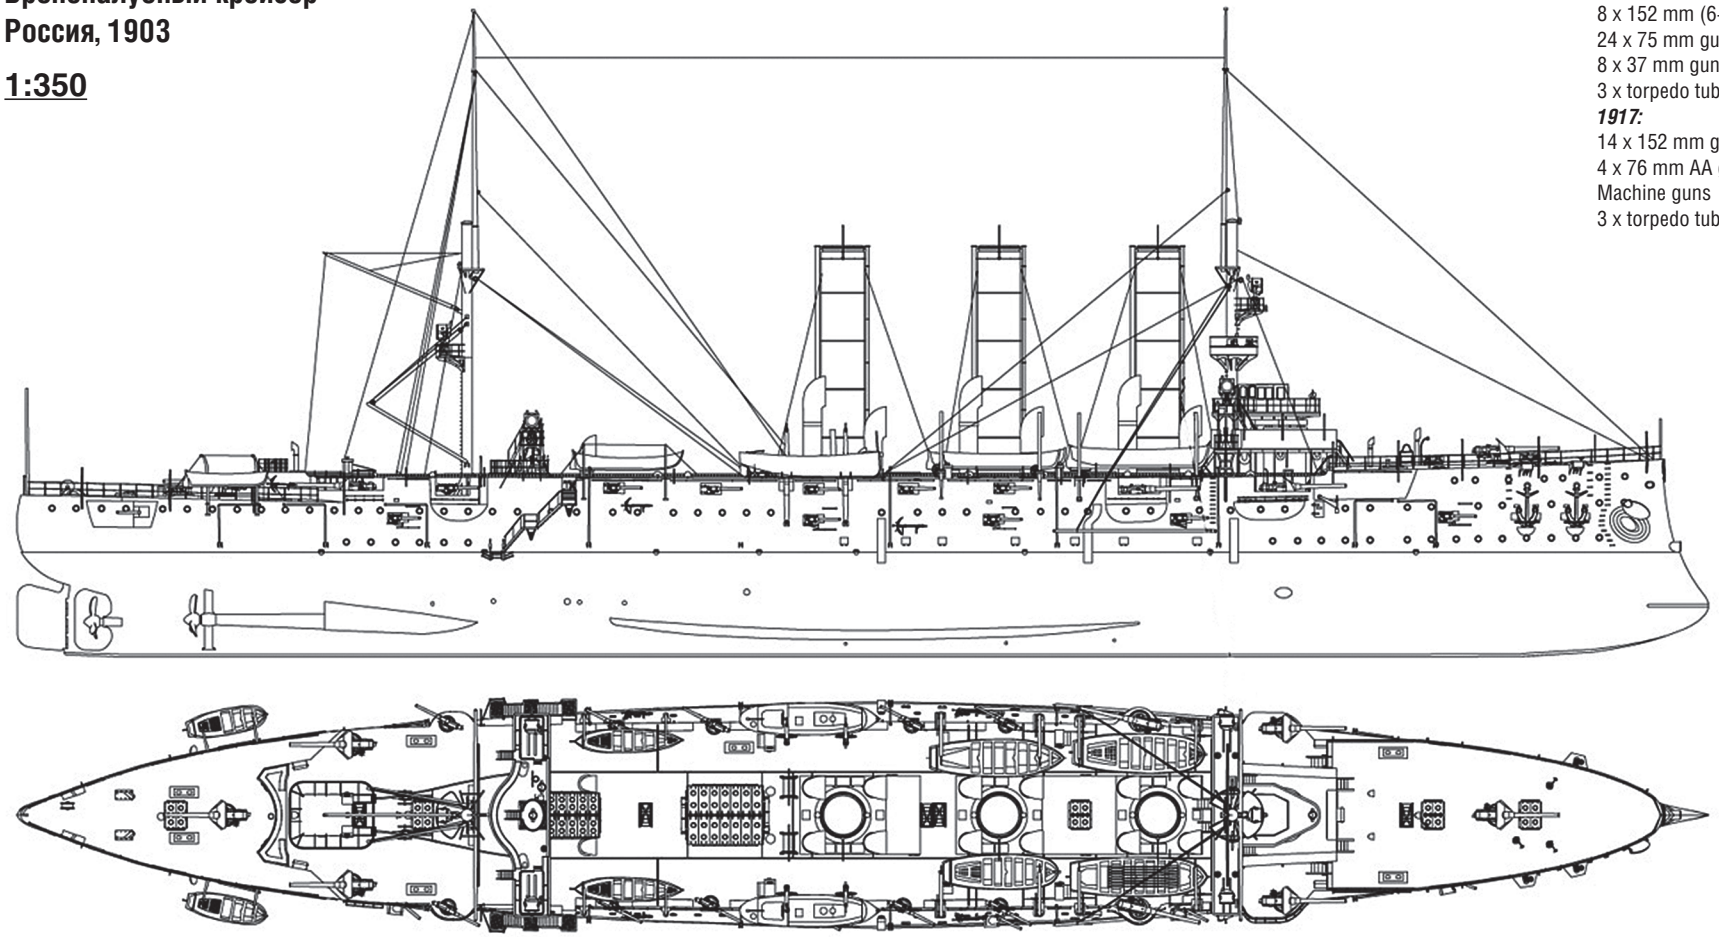
24 x 75 mm guns
8 x 37 mm guns
3 x torpedo tubes (two underwater)
1917:
14 x 152 mm guns
4 x 76 mm AA guns
Machine guns
3 x torpedo tubes (two underwater)



«Аврора» — крейсер 1-го ранга Балтийского флота типа «Диана». Назван в честь парусного фрегата «Аврора», прославившегося при обороне Петропавловска-Камчатского в годы Крымской войны.

Во время русско-японской войны участвовал в походе Второй Тихоокеанской эскадры, закончившемся Цусимским сражением. Крейсер принимал участие также в Первой мировой войне. Холостой выстрел с «Авроры» явился сигналом к штурму Зимнего дворца, крейсер стал одним из символов Октябрьской революции. В настоящее время находится на вечной стоянке у Петроградской набережной в Санкт-Петербурге и является объектом культурного наследия Российской Федерации.
